

* Want to add zoom function to nav
* Zoom will help with isolation of sections of nav

Welcome to Say's Portfolio			* bottom-border	* Fantasy Font
<u>Nav</u> About Me Contact Projects Others	 * Pic of Me	* Background Effects themed	<u>Projects</u>   	
<u>About Me</u>   	<u>Others</u> * ideas - Goals - Direction - Coding languages		<u>Contacts</u>  	
Footer				

The functionality of my wireframe is to showcase my portfolio website's layout. The design is kind of minimalistic, but bright and outgoing like my personality. The theme and color schemes used for this portfolio site should convey feelings of nostalgia. I want it to be balanced and simple-sectioned to make it easy for users to navigate.

* Save by the bell themed colors
